Resource Management is a Perpetual Struggle.

Are you consistently short of resources with your team always asking for more?
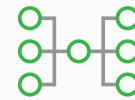

[Let's Get Creative]

Increase the Capacity of Your Team with a CHESA Service Level Agreement

- **I.T. needs helping hands** in lieu of expanding headcount.

- **Creative needs training** so the team reaches the desired performance level.

- **Operations needs platform fine-tuning,** eliminating the need to add internal resources.

- **System Admins need systems monitoring** to stay proactive, not reactive.

Ease in Budgeting

Your SLA rate is a Firm Fixed Price that you know upfront - no surprises or hidden add-ons. No need to make allowances for benefits or vacation time.
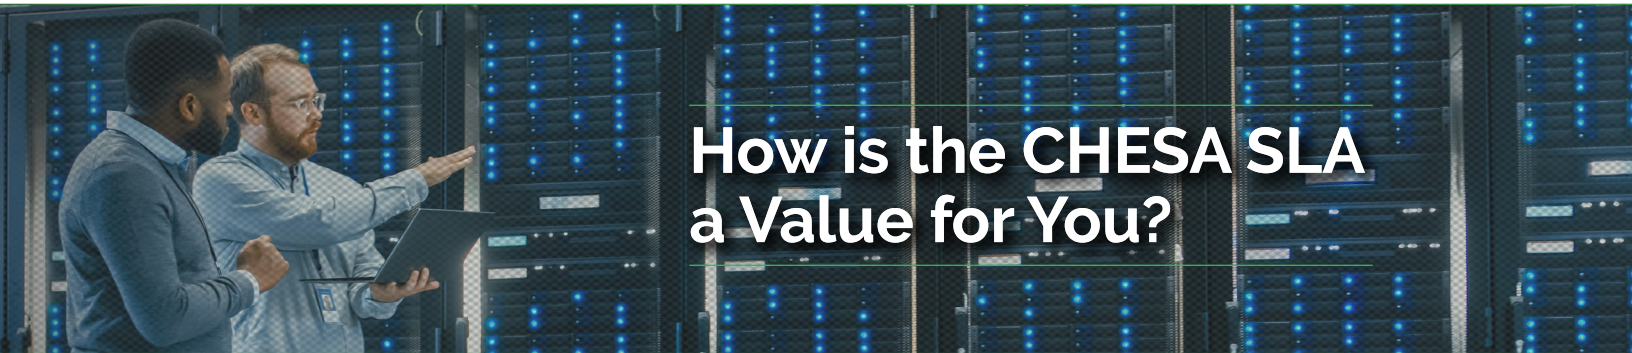

Robustness & Redundancy

Your SLA is an entire team of dozens of industry-best engineers at your disposal, along with our monitoring platform built to supply analytics, performance, and proactive response.

CHESA doesn't call in sick or quit. CHESA doesn't go on vacation.

CHESA is there, reliably, when you need us.

How is the CHESA SLA a Value for You?

With CHESA on Your Team, You Gain:

**IT Systems Engineer**
($120k average annual salary)

+

**Application Development Engineer**
($115k average annual salary)

+

Your Editors, Media Managers, and Producers get a boost because they're relieved of technical responsibilities and can now focus on their core activities.

The Cost-Savings Benefits of the CHESA SLA

ENVIRONMENT SIZE

Small — $12k-$20k CHESA SLA

Medium — $25k-$55k CHESA SLA

Large — $60k-$90k CHESA SLA
